

Productions participating in the New York State Film Production and Post-Production Tax Credit programs are eligible to receive a 25% -35% tax credit on qualified wages and costs.

As New York State makes increased diversity of the production industry workforce a priority, all participating productions are required to create and implement diversity plans which including setting diversity goals, demonstrating that they have made good-faith efforts to meet these goals including promoting and encouraging the hiring of suppliers and subcontractors who represent the diversity of the State's population as a condition of receiving tax credits.

As part of the application process, productions are required to submit diversity data on the gender and race/ethnicity of the suppliers and subcontractors they hire. Empire State Development has created this tracking sheet as a tool that production companies may use in order to collect diversity impact data on suppliers and subcontractors working with the production. **This form is for the production's internal data collection purposes only and will not be submitted to Empire State Development.**
