

Albany Medical College
START-UP NY Campus Plan Summary

Building Space Available

On Campus — 47 New Scotland Avenue, Albany, NY 12208

The Biomedical Acceleration and Commercialization Center at Albany Medical College (BACC) has 8,000 SF of office space in a separate building adjacent to the main college campus with access to a shared conference room, office manager and other common areas. Also available is 2,000 square feet of wet lab in the college's research suites. In addition, companies would also have access to:

- Our Nationally Recognized Academic Medical Center
- Hospital Professional/Medical Staff
- College Residents, Students, Researchers and Staff
- Five-Story Medical School Library
- Animal Facility
- Lead-Lined Radiological Suite
- Mock ER/OR and Patient Simulation Program
- Diagnostic Equipment (radiology, MRI, cardiovascular, etc.)
- On-Campus Cafeteria and Fitness Facility
- Executive Physical Program

Land Available:

None

Academic Linkages:

Albany Medical College provides an ideal setting to foster relationships with companies to develop a variety of biomedical equipment, biomedical material products and clinical testing. Ideally, the companies will have mutual biomedical product development interests in the areas of clinical and medical research. The AMC BACC is committed to discovering, developing and accelerating breakthrough biotechnologies that will dramatically improve patient experiences and outcomes while aiding in the economic growth of our region and beyond. The BACC will create a regionally inclusive ecosystem where entrepreneurs, inventors, physicians, researchers, academicians, business professionals, investors, students and administrators will stimulate healthcare innovation.

Businesses:

Biomedicine
Bioengineering
Biotechnology
Bioinformatics
Pharmaceutical

Community and Economic Benefits:

Establish the Capital Region's first biomedical innovation/incubator center so local bio-related start-ups don't locate out of New York State.

Stimulate entrepreneurship at Albany Medical College and with strategic academic and commercial partners.

Create job opportunities and growth in this region.

Provide researchers, doctors, students and medical staff opportunity to link and foster partnership with campus-based companies.
