About Capability Statements

A Capability Statement is a brief marketing document that highlights a firm’s primary services and/or products to its target agency. The Statement should be direct and concise, giving a snapshot of a company’s area of expertise. This information paper provides a description of key components of a Capability Statement.

Key Elements of a Capability Statement

A Capability Statement addresses five (5) critical components: Core Competencies, Past Performance, Differentiators, Company Data, and Contact Information. Information on four sections is included below:

3. **Differentiators**: What sets your company apart from competing vendors? Clearly articulate your company's value added and how it distinguishes you from current competition.
   a. Helpful Tips: Does the agency you intend to do business with buy your services/products? Are you delivering your services/products in a way that brings complete customer satisfaction? Do you have a competitive advantage in pricing or product quality? Is your product proprietary?

4. **Company Data**: Describe information unique to your company such as: business capacity, number of employees, years of business operations, and types of certifications for government programs. Specify the industry codes associated with your services.
