

NEW YORK STATE
RESTAURANT RETURN-TO-WORK
TAX CREDIT PROGRAM REPORT

**Empire State
Development**

June 30, 2022

RESTAURANT RETURN-TO-WORK TAX CREDIT

The New York State FY 2022 budget established the Restaurant Return-To-Work tax credit program. Through this program, \$35 million dollars was made available to COVID-impacted restaurants to bring restaurant staff back to work, and to increase hiring at NYS restaurants. Qualifying businesses were eligible for a tax credit of \$5,000 per new worker hired, up-to \$50,000 per business.

The Program was open to eligible restaurants located in New York City that were subject to a suspension of indoor dining for over six months, or in an area outside of New York City that was subject to in-person dining restrictions and designated as an Orange or Red Zone for at least thirty consecutive days. Orange and Red Zones were designated by the NYS Department of Health.

Restaurants were provided a Fast-Track Option to claim the credit before the end of the 2021 tax year. Restaurants were able to claim the credit under this option if they demonstrated a net employee increase of at least one full-time employee between April 1, 2021, and August 31, 2021.

Alternatively, restaurants were able to claim the tax credit on their 2021 NYS tax return if the business demonstrated a net employee increase of at least one full-time employee between April 1, 2021, and December 31, 2021 (year-end credits).

Applications for tax credits were completed by eligible businesses and submitted to Empire State Development (ESD) for review and verification. If all requirements of the Program were met, ESD issued a tax credit certificate to the business entity, which could then be filed with the NYS Department of Tax and Finance, to receive payment.

ESD's review of incoming applications revealed that many businesses demonstrated a net employee increase of more than 10 jobs but were not able to receive credits for those additional jobs because the Program initially set a cap of 10 jobs or \$50,000 per business. In response, and as part of the FY 2023 budget, Governor Kathy Hochul proposed to raise the jobs cap in the Program from 10 to 20, thereby allowing high job-creating restaurants to receive credits for jobs above 10 net new positions. As part of the FY 2023 budget, the program was enhanced to provide those businesses an additional tax credit of \$5,000 per new worker hired, up-to an additional \$50,000 per business. This enhancement was tailored to restaurants that had participated in the initial program and were located in the previously designated Orange and Red Zones. In order to receive additional credits, those businesses must submit an application by July 1, 2022, and must verify that the jobs created at these restaurants remain. Once verified, ESD will issue a tax credit certificate to claim an advance payment before the end of the 2022 tax year.

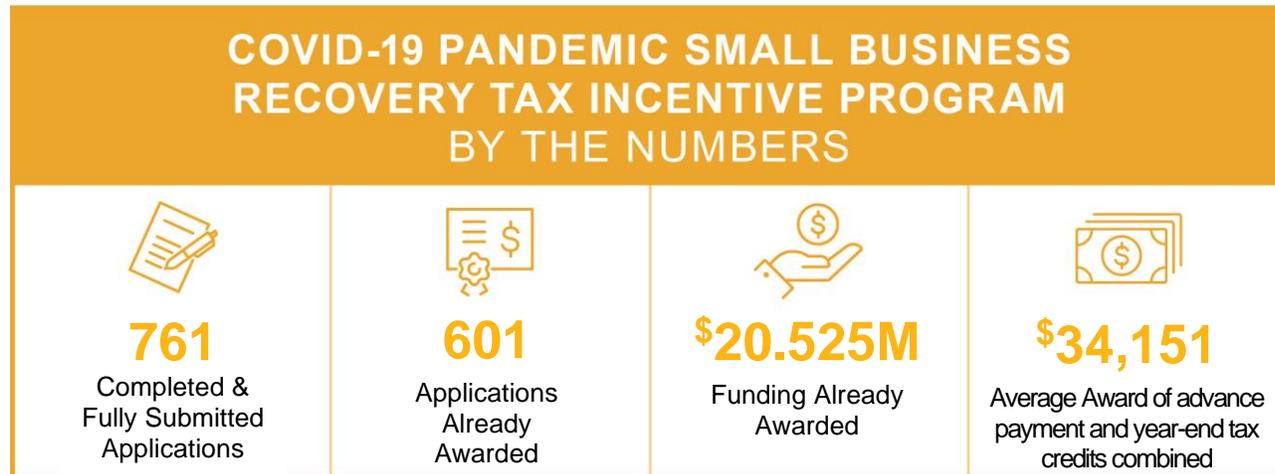

Additional information about this program enhancement can be found here: <https://esd.ny.gov/restaurant-return-work-tax-credit>

Any questions about the Program can be directed to NYSRestaurantTaxCredit@esd.ny.gov

SUMMARY RESULTS

To-date, 601 businesses have been approved to receive tax credits of \$20.5 million.

- Under the Fast-Track Option, 348 businesses were approved to receive advance payments of \$12 million. The \$12 million represents the value of the tax credits issued by Empire State Development. Participants awarded advance payments had until November 15, 2021, to claim their payments on the website of the NYS Department of Taxation and Finance, which disbursed \$7.2 million as advance payments. The recipients of the remaining \$4.9 million, who did not meet the November 15th deadline, may claim their payments on their 2021 tax returns as a tax credit.
- Other businesses opted to claim credits on their 2021 tax returns, and, to date, 253 businesses have been approved to receive tax credits of \$8.5 million.

DETAILED RESULTS

Provided below are two charts showing the number of approved businesses, the amounts approved and the number of rehires by region. Appendix A lists the name of each participant, the amount approved, and the economic development region.

The total number of rehires was 6,609. The average number of rehires among the 348 businesses approved for advance payments was 11.

For the 253 restaurants approved for the year-end tax credits, the average number of rehires was 11.

The average advance payment tax credit issued was \$34,583 and the average tax credit issued via the year-end option was \$33,557.
