(h) If a business seeks to expand its current operations in New York state into a tax-free NY area but the business does not qualify as a new business because it does not satisfy the criteria in [paragraph \(c\) of subdivision six of section four hundred thirty-one](#) of this article or the business does not satisfy the eligibility standard set forth in paragraph (f) of this subdivision, the commissioner shall grant the business permission to apply to participate in the START-UP NY program if the commissioner determines that the business has demonstrated that it will create net new jobs in the tax-free NY area and that it or any related person has not eliminated any jobs in the state in connection with this expansion.

2. The following types of businesses are prohibited from participating in the START-UP NY program.

(a) retail and wholesale businesses;

(b) restaurants;

(c) real estate brokers;

4. Any business that has successfully completed residency in a New York state incubator pursuant to section sixteen-v of section one of chapter one hundred seventy-four of the laws of nineteen hundred sixty-eight constituting the urban development corporation act, subject to approval of the commissioner, may apply to participate in the START-UP NY program provided that such business locates in a tax-free NY area, notwithstanding the fact that the business may not constitute a new business.

§ 434. Tax benefits

1. A business that is accepted into the START-UP NY program and locates in a tax-free NY area or the owner of a business that is accepted into the START-UP NY program and locates in a tax-free NY area is eligible for the tax benefits specified in [section thirty-nine of the tax law](#). 2. The aggregate number of net new jobs approved for personal income tax benefits under this article shall not exceed ten thousand jobs per year during the period in which applications are accepted pursuant to [section four hundred thirty-six](#) of this article. The commissioner shall allocate to each business accepted to locate in a tax-free NY area a maximum number of net new jobs that shall be eligible for the personal income tax benefits described in [subdivision \(e\) of section thirty-nine of the tax law](#) based on the schedule of job creation included in the application of such business. At such time as the total number of net new jobs under such approved applications reaches the applicable allowable total of aggregate net new jobs for tax benefits for the year in which the application is accepted, the commissioner shall stop granting eligibility for personal income tax benefits for net new jobs until the next year. Any business not granted such personal income tax benefits for net new jobs for such reason shall be granted such benefits in the next year prior to the consideration of new applicants. In addition, if the total number of net new jobs approved for tax benefits in any given year is less than the maximum allowed under this subdivision, the difference shall be carried over to the next year. A business may amend its schedule of job creation in the same manner that it applied for participation in the START-UP NY program, and any increase in eligibility for personal income tax benefits on behalf of additional net new jobs shall be subject to the limitations of this subdivision. If the business accepted to locate in a tax-free NY area creates more net new jobs than for which it is allocated

personal income tax benefits, the personal income tax benefits it is allocated shall be provided to those individuals employed in those net new jobs based on the employees' dates of hiring.

§ 435. Approval of tax-free NY areas

1. The president or chief executive officer of any state university campus, community college or city university campus seeking to sponsor a tax-free NY area and have some of its eligible land specified under [subdivision one of section four hundred thirty-two](#) of this article be designated as a tax-free NY area must submit a plan to the commissioner that specifies the land or space the campus or college wants to include, describes the type of business or businesses that may locate on that land or in that space, explains how those types of businesses align with or further the academic mission of the campus or college and how participation by those types of businesses in the START-UP NY program would have positive community and economic benefits, and describes the process the campus or college will follow to select participating businesses. At least thirty days prior to submitting such plan, the campus or college must provide the municipality or municipalities in which the proposed tax-free NY area is located, local economic development entities, the applicable campus or college faculty senate, union representatives and the campus student government with a copy of the plan. In addition, if the plan of the campus or college includes land or space located outside of the campus boundaries, the campus or college must consult with the municipality or municipalities in which such land or space is located prior to including such space or land in its proposed tax-free NY area and shall give preference to underutilized properties. Before approving or rejecting the plan submitted by a state university campus, community college or city university campus, the commissioner shall consult with the chancellor of the applicable university system or his or her designee.

2. The president or chief executive officer of any private college or university or of any state university campus, community college or city university campus seeking to sponsor a tax-free NY area and have some of its eligible land specified under [subdivision two of section four hundred thirty-two](#) of this article be designated as a tax-free NY area must submit a plan to the commissioner that specifies the land or space the college or university wants to include, describes the type of business or businesses that may locate on that land or in that space, explains how those types of businesses align with or further the academic mission of the college or university and how participation by those types of businesses in the START-UP NY program would have positive community and economic benefits, and describes the process the campus or college will follow to select participating businesses. In addition, if the plan of the campus or college includes land or space located outside of the campus boundaries, the campus or college must consult with the municipality or municipalities in which such land or space is located prior to including such space or land in its proposed tax-free NY area and shall notify local economic development entities. The commissioner shall forward the plan submitted under this subdivision to the START-UP NY approval board. In evaluating such plans, the board shall examine the merits of each proposal, including but not limited to, compliance with the provisions of this article, reasonableness of the economic and fiscal assumptions contained in the application and in any supporting documentation and potential of the proposed project to create new jobs, and, except for proposals for designation of eligible land under [paragraph \(c\) of subdivision two of section four hundred thirty-two](#) of this article, shall prioritize for acceptance and inclusion into the START-UP NY program plans for tax-free NY areas in counties that contain a city with a

population of one hundred thousand or more without a university center as defined in [subdivision seven of section three hundred fifty of the education law](#) on the effective date of this article. No preference shall be given based on the time of submission of the plan, provided that any submission deadlines established by the board are met. In addition, the board shall give preference to private colleges or universities that include underutilized properties within their proposed tax-free NY areas. The board by a majority vote shall approve or reject each plan forwarded to it by the commissioner.

3. A campus, university or college may amend its approved plan, provided that the campus, university or college may not violate the terms of any lease with a business located in the approved tax-free NY area. In addition, if a business located in a tax-free NY area does not have a lease with a campus, university or college, and such business is terminated from the START-UP NY program pursuant to [paragraph \(b\) of subdivision four of section four hundred thirty-six](#) of this article, and subsequently does not relocate outside of the tax-free NY area, a campus, university or college may amend its approved plan to allocate an amount of vacant land or space equal to the amount of space occupied by the business that is terminated. The amendment must be approved pursuant to the procedures and requirements set forth in subdivision one or two of this section, whichever is applicable.

4. The START-UP NY approval board, by majority vote, shall designate correctional facilities described in [subdivision fourteen of section four hundred thirty-one](#) of this article, START-UP NY airport facilities described in subdivision fifteen of section four hundred thirty-one of this article and up to twenty strategic state assets as tax-free NY areas. Each shall be affiliated with a state university campus, city university campus, community college, or private college or university and such designation shall require the support of the affiliated campus, college or university. Each strategic state asset and START-UP NY airport facility, other than a correctional facility, may not exceed a maximum of two hundred thousand square feet of vacant land or vacant building space designated as a tax-free NY area. Designation of strategic state assets, correctional facilities described in [subdivision fourteen of section four hundred thirty-one](#) of this article, and START-UP NY airport facilities described in subdivision fifteen of section four hundred thirty-one of this article as tax-free NY areas shall not count against any square footage limitations in [section four hundred thirty-two](#) of this article.

5. The commissioner shall promulgate regulations to effectuate the purposes of this section, including, but not limited to, establishing the process for the plan submissions and approvals of tax-free NY areas and the eligibility criteria that will be applied in evaluating those plans.

§ 436. Businesses locating in tax-free NY areas

1. A campus, university or college that has sponsored a tax-free NY area (including any strategic state asset affiliated with the campus, university or college) shall solicit and accept applications from businesses to locate in such area that are consistent with the plan of such campus, university or college or strategic state asset that has been approved pursuant to [section four hundred thirty-five](#) of this article. Any business that wants to locate in a tax-free NY area must submit an application to the campus, university or college which is sponsoring the tax-free NY area by December thirty-first, two thousand twenty. Prior to such date, the commissioner shall

prepare an evaluation on the effectiveness of the START-UP NY program and deliver it to the governor and the legislature to determine continued eligibility for application submissions.

2. (a) The sponsoring campus, university or college shall provide the application and all supporting documentation of any business it decides to accept into its tax-free NY area to the commissioner for review. Such application shall be in a form prescribed by the commissioner and shall contain all information the commissioner determines is necessary to properly evaluate the business's application, including, but not limited to, the name, address, and employer identification number of the business; a description of the land or space the business will use, the terms of the lease agreement, if applicable, between the sponsoring campus, university or college and the business, and whether or not the land or space being used by the business is being transferred or sublet to the business from some other business. The application must include a certification by the business that it meets the eligibility criteria specified in [section four hundred thirty-three](#) of this article and will align with or further the academic mission of the sponsoring campus, college or university, and that the business's participation in the START-UP NY program will have positive community and economic benefits. The application must also describe whether or not the business competes with other businesses in the same community but outside the tax-free NY area. In addition, the application must include a description of how the business plans to recruit employees from the local workforce.

(b) The commissioner shall review such application and documentation within sixty days and may reject such application upon a determination that the business does not meet the eligibility criteria in [section four hundred thirty-three](#) of this article, has submitted an incomplete application, has failed to comply with subdivision three of this section, or has failed to demonstrate that the business's participation in the START-UP NY program will have positive community and economic benefits, which shall be evaluated based on factors including but not limited to whether or not the business competes with other businesses in the same community but outside the tax-free NY area as prohibited by [section four hundred forty](#) of this article. If the commissioner rejects such application, it shall provide notice of such rejection to the sponsoring campus, university or college and business. If the commissioner does not reject such application within sixty days, such business is accepted to locate in such tax-free NY area, and the application of such business shall constitute a contract between such business and the sponsoring campus, university or college. The sponsoring campus, university or college must provide accepted businesses with documentation of their acceptances in such form as prescribed by the commissioner of taxation and finance which will be used to demonstrate such business's eligibility for the tax benefits specified in [section thirty-nine of the tax law](#).

(c) If a state university campus proposes to enter into a lease with a business for eligible land in a tax-free NY area with a term greater than forty years, including any options to renew, or for eligible land in a tax-free NY area of one million or more square feet, the state university campus, at the same time as the application is provided to the commissioner, also must submit the lease for review to the START-UP NY approval board. If the board does not disapprove of the lease terms within thirty days, the lease is deemed approved. If the board disapproves the lease terms, the state university campus must submit modified lease terms to the commissioner for review. The commissioner's sixty day review period is suspended while the board is

reviewing the lease and during the time it takes for the state university campus to modify the lease terms.

(d) Except as otherwise provided in this article, proprietary information or supporting documentation submitted by a business to a sponsoring campus, university or college shall only be utilized for the purpose of evaluating such business's application or compliance with the provisions of this article and shall not be otherwise disclosed. Any person who willfully discloses such information to a third party for any other purpose whatsoever shall be guilty of a misdemeanor.

3. The business submitting the application, as part of the application, must:

(a) agree to allow the department of taxation and finance to share its tax information with the department and the sponsoring campus, university or college;

(b) agree to allow the department of labor to share its tax and employer information with the department and the sponsoring campus, university or college;

(c) allow the department and its agents and the sponsoring campus, university or college access to any and all books and records the department or sponsoring campus, university or college may require to monitor compliance;

(d) include performance benchmarks, including the number of net new jobs that must be created, the schedule for creating those jobs, and details on job titles and expected salaries. The application must specify the consequences for failure to meet such benchmarks, as determined by the business and the sponsoring campus, university or college: (i) suspension of such business's participation in the START-UP NY program for one or more tax years as specified in such application; (ii) termination of such business's participation in the START-UP NY program; and/or (iii) proportional recovery of tax benefits awarded under the START-UP NY program as specified in [section thirty-nine of the tax law](#);

Such business shall be notified of such termination by a method which allows for verification of receipt of such termination notice. A copy of such termination notice shall be sent to the commissioner of taxation and finance. Upon such termination, such business shall not be eligible for the tax benefits specified in [section thirty-nine of the tax law](#) for that or any future taxable year, calendar quarter or sales tax quarter, although employees of such business may continue to claim the tax benefit for their wages during the remainder of that taxable year. The auditor shall forward such reports to the commissioner, who shall make public such reports.

2. For purposes of such conflict of interest policies: (a) an official of a campus, university or college has a "business interest" in an entity if the individual: (i) owns or controls ten percent or more of the stock of the entity (or one percent in the case of an entity the stock of which is regularly traded on an established securities exchange); or (ii) serves as an officer, director or partner of the entity; (b) a "relative" of an official of a campus, university or college shall mean any person living in the same household as the individual and any person who is a direct descendant of that individual's grandparents or the spouse of such descendant; and (c) an "official" of a campus, university or college shall mean an employee at the level of dean and above as well as any other employee with decision-making authority over the START-UP NY program.

If the commissioner of economic development on his or her own initiative or on the recommendation of a sponsoring campus, university or college finally determines that any such business participating in the START-UP NY program authorized under article twenty-one of the economic development law has acted fraudulently in connection with its participation in such program, such business:

(a) shall be immediately terminated from such program;

(b) shall be subject to applicable criminal penalties, including but not limited to the felony crime of offering a false instrument for filing in the first degree pursuant to [section 175.35 of the penal law](#); and

(c) shall be required in that year to add back to tax the total value of the tax benefits described in [section thirty-nine](#) of this article that such business has received and that the employees of such business have received up to the date of such finding. The amount required to be added back shall be reported on such business's corporate franchise report if such business is taxed as a corporation or on the corporate franchise tax reports or personal income tax returns of the owners of such business if such business is taxed as a sole proprietorship, partnership or New York S corporation.

§ 40. The tax-free NY area tax elimination credit

(a) Allowance of credit. A taxpayer that is a business or owner of a business in the case of a business taxed as a sole proprietorship, partnership or New York S corporation, that is located in a tax-free NY area approved pursuant to article twenty-one of the economic development law and is subject to tax under article nine-A, or twenty-two of this chapter, shall be allowed a credit against such tax, pursuant to the provisions referenced in subdivision (e) of this section, to be computed as hereinafter provided.

(b) Amount of credit. The amount of the credit shall be the product of: (1) the tax-free area allocation factor; and (2) the tax factor.

(c) Tax-free area allocation factor. The tax-free area allocation factor shall be the percentage representing the business's economic presence in the tax-free NY area in which the business was approved to locate pursuant to article twenty-one of the economic development law. This percentage shall be computed by:

(1) ascertaining the percentage that the average value of the business's real and tangible personal property, whether owned or rented to it, in the tax-free NY area in which the business was located during the period covered by the taxpayer's report or return bears to the average value of the business's real and tangible personal property, whether owned or rented to it, within the state

during such period; provided that the term “value of the business's real and tangible personal property” shall have the same meaning as such term has in [paragraph \(a\) of subdivision two of section two hundred nine-B](#) of this chapter; and

(2) ascertaining the percentage that the total wages, salaries and other personal service compensation, similarly computed, during such period of employees, except general executive officers, employed at the business's location in the tax-free NY area, bears to the total wages, salaries and other personal service compensation, similarly computed, during such period, of all the business's employees within the state, except general executive officers; and

(3) adding together the percentages so determined and dividing the result by two.

For purposes of article twenty-two of this chapter, references in this subdivision to property, wages, salaries and other personal service compensation shall be deemed to be references to such items connected with the conduct of a business.

(d) Tax factor. (1) General. The tax factor shall be, in the case of article nine-A of this chapter, the largest of the amounts of tax determined for the taxable year under paragraphs (a) through (d) of subdivision one of section two hundred ten of such article after the deduction of any other credits allowable under such article. The tax factor shall be, in the case of article twenty-two of this chapter, the tax determined for the taxable year under subsections (a) through (d) of section six hundred one of such article after the deduction of any other credits allowable under such article.

(2) Sole proprietors, partners and S corporation shareholders. (A) Where the taxpayer is a sole proprietor of a business located in a tax-free NY area, the taxpayer's tax factor shall be that portion of the amount determined in paragraph one of this subdivision that is attributable to the income of the business at its location in the tax-free NY area. Such attribution shall be made in accordance with the ratio of the taxpayer's income from such business allocated within the state, entering into New York adjusted gross income, to the taxpayer's New York adjusted gross income, or in accordance with such other methods as the commissioner may prescribe as providing an apportionment that reasonably reflects the portion of the taxpayer's tax attributable to the income of such business. In no event may the ratio so determined exceed 1.0. The income from such business allocated within the state shall be determined as if the sole proprietor was a non-resident.

(B)(i) Where the taxpayer is a member of a partnership that is a business located in a tax-free NY area, the taxpayer's tax factor shall be that portion of the amount determined in paragraph one of this subdivision that is attributable to the income of the partnership. Such attribution shall be made in accordance with the ratio of the partner's income from the partnership allocated within the state to the partner's entire income, or in accordance with such other methods as the commissioner may prescribe as providing an apportionment that reasonably reflects the portion of the partner's tax attributable to the income of the partnership. In no event may the ratio so determined exceed 1.0. The income from the partnership allocated within the state shall be determined as if any of the partners was a non-resident.

(ii) For purposes of article nine-A of this chapter, the term “partner's income from the partnership” means partnership items of income, gain, loss and deduction, and New York modifications thereto, entering into business income and the term “partner's entire income” means business income, allocated within the state. For purposes of article twenty-two of this chapter, the term “partner's income from the partnership” means partnership items of income, gain, loss and deduction, and New York modifications thereto, entering into New York adjusted gross income, and the term “partner's entire income” means New York adjusted gross income.

(C)(i) Where the taxpayer is a shareholder of a New York S corporation that is a business located in a tax-free NY area, the shareholder's tax factor shall be that portion of the amount determined in paragraph one of this subdivision that is attributable to the income of the S corporation. Such attribution shall be made in accordance with the ratio of the shareholder's income from the S corporation allocated within the state, entering into New York adjusted gross income, to the shareholder's New York adjusted gross income, or in accordance with such other methods as the commissioner may prescribe as providing an apportionment that reasonably reflects the portion of the shareholder's tax attributable to the income of such business. The income of the S corporation allocated within the state shall be determined by multiplying the income of the S corporation by a business allocation factor that shall be determined in clause (ii) of this subparagraph. In no event may the ratio so determined exceed 1.0.

(ii) The business allocation factor for purposes of this subparagraph shall be computed by adding together the property factor specified in subclause (I) of this clause, the wage factor specified in subclause (II) of this clause and the apportionment factor determined under [section two hundred ten-A](#) of this chapter and dividing by three.

(I) The property factor shall be determined by ascertaining the percentage that the average value of the business's real and tangible personal property, whether owned or rented to it, within the state during the period covered by the taxpayer's report or return bears to the average value of the business's real and tangible personal property, whether owned or rented to it, within and without the state during such period; provided that the term “value of the business's real and tangible personal property” shall have the same meaning as such term has in [paragraph \(a\) of subdivision two of section two hundred nine-B](#) of this chapter.

(II) The wage factor shall be determined by ascertaining the percentage that the total wages, salaries and other personal service compensation, similarly computed, during such period of employees, except general executive officers, employed at the business's location or locations within the state, bears to the total wages, salaries and other personal service compensation, similarly computed, during such period, of all the business's employees within and without the state, except general executive officers.

(3) Combined returns or reports. (A) Where the taxpayer is a business located in a tax-free NY area and is required or permitted to make a return or report on a combined basis under article nine-A of this chapter, the taxpayer's tax factor shall be the amount determined in paragraph one of this subdivision that is attributable to the income of such business. Such attribution shall be made in accordance with the ratio of the business's income allocated within the state to the combined group's income, or in accordance with such other methods as the commissioner may

prescribe as providing an apportionment that reasonably reflects the portion of the combined group's tax attributable to the income of such business. In no event may the ratio so determined exceed 1.0.

(B) The term “income of the business located in a tax-free NY area” means business income calculated as if the taxpayer was filing separately and the term “combined group's income” means business income as shown on the combined report, allocated within the state.

(4) If a business is generating or receiving income from a line of business or intangible property that was previously conducted, created or developed by the business or a related person, as that term is defined in [section four hundred thirty-one of the economic development law](#), the tax factor specified in this subdivision shall be adjusted to disregard such income.
