

Global NY State Trade Expansion Program (STEP) STEP 9 (Continuation Year) – Guidelines (Version 1)

Program Overview

Empire State Development (ESD) is working in partnership with the U.S. Small Business Administration (SBA) to increase the number of small businesses that begin to export; increase the value of exports for small businesses that currently export; and increase the number of small businesses exploring significant new trade opportunities.

Allowable Uses of Program Funds

1. Subscription to services provided by the Department of Commerce

A company may elect to utilize the services available from the U.S. Commercial Service, the trade promotion arm of the U.S. Department of Commerce's International Trade Administration, to assist a company with entering or expanding their markets; such as, choosing the best market for their products or services; evaluating prospective foreign business partners; increasing market potential; and gold key matchmaking services.

2. Trade show exhibition (International and qualified domestic/virtual trade shows)

A trade show is an exhibition to showcase and demonstrate a company's products and services. This includes foreign trade shows appropriate for export development, and domestic/virtual trade shows, which have a significant international audience participation.

3. Participation in export training workshops

Training workshops and education courses must have a direct benefit to, and assist, a company with gaining credible knowledge of export policies, regulations, and/or best practices. Ideally, training should be part of a "pipeline" approach that leads to assisting a first time or 'novice' exporter to become an 'experienced' exporter. Export certification or training workshops offered by SBA resource partners; such as, Small Business Development Centers (SBDCs), Women Business Centers (WBCs) and SCORE are encouraged. Another example is ExporTech: a structured program jointly offered by the NIST Manufacturing Extension Partnership and the U.S. Commercial Service that assist companies going to market and with executing strategic export plans.

4. Qualified foreign market sales trips

A qualified foreign market sales trip will allow a company representative to participate in organized trade missions and/or events that will enable them to explore or expand international business opportunities. A trip must be organized by a professional trade organization, the U.S. Commercial Service, the U.S. Department of State, Foreign Embassy, Consulate or through ESD's foreign offices after use of the Export Marketing Assistance Service (EMAS Plus). A detailed agenda must be provided.

5. Website Content/Foreign Language Translation

This activity pertains to translation of websites into foreign languages, localization for foreign markets, and search engine optimization.

6. Development of International Marketing Campaign(s)

Marketing media is the ability to promote a company's product or service to strengthen their export sales potential, ability to reach target audiences, and/or expand export market opportunities using any of the following: Brochures, Social media platforms; Websites; Billboards; Newspapers; Branding and advertising; Posters; Advertisements in international magazines.

7. Consultancy Services

Procurement of consultancy services include design and creation of an export marketing plan, creation of a market entry strategy based on a consultant's knowledge or experience in a particular market, creation of an export compliance manual or conducting an export compliance audit. Consultancy services must be carried out by a third-party organization

8. Compliance Testing

Cost of compliance testing an existing product for entry into an export market. Compliance testing must be carried out by a third-party organization.

*Speaking engagements at a conference is an ineligible activity

Activity Selection Guidelines

The funding period will begin on September 30, 2021 and conclude on September 29, 2022. **Each company may receive a maximum combined award total of up to \$14,000 per funding period.** STEP awards are issued on a first-come, first-served basis until the program funds are expended. Effective October 2018, companies will not be permitted to attend the same trade show, virtually or physically, more than four times through the life of the STEP program.

Evaluation Process & Funding

ESD staff will review all applications and make a determination regarding the applicant's eligibility within 30 business days of receipt of the application. Incomplete applications will not be reviewed. Companies new to this program are encouraged to speak with an International Trade Manager prior to submitting an application (see page 6 for contact information). All questions must be completed, and signatures must be provided where applicable.

The grant is awarded in the form of a reimbursement. Exceptions may be made for certain programmed trade missions or trade shows that necessitate an advance payment by ESD to the event organizer, as a direct benefit to the applicant.

Reimbursement for expenses is limited to one company representative and is based on 70% of the total eligible costs, up to the applicable cap of the trade activity as specified on the application, whichever is less. This program does not allow for reimbursement of retroactive trade activities that have already been completed. If changes occur to a company's planned arrangements, failure to provide adequate notice to ESD officials of the changes may void any awarded funds.
