

Job Opening

2-year grant funded position

Job Posting: October 2021

Application Deadline: 30 days or
until position is filled

JOB TITLE: Project Manager, Monitoring & Compliance

LOCATION: NYC

DEPT: Broadband

BASIC FUNCTION: Responsible for a variety of duties within ESD's Broadband Program Office (BPO) in connection with the development, implementation, ongoing monitoring, and review of grant-supported broadband deployment projects across the State of New York. Work closely with the BPO Project Management team to ensure that construction of these projects proceeds on established schedules, that grant recipients adhere to the programmatic and contractual obligations, and that as-built projects conform to approved project plans.

WORK PERFORMED:

- Manage implementation of large, diverse and complex broadband deployment projects across the State involving different private partners, technologies, and geographies that may overlap in schedule. Ensure projects remain on schedule and are completed as planned.
- Work closely with the BPO Project Management Team and its external technical advisors in review and validation of completed projects, to ensure that as-built projects are consistent with funding proposals and meet the requirements of the New NY Broadband Program, including resolution of review findings
- Communicate with BPO grant recipients on behalf of reviewers and perform any necessary data collection and analysis.
- Collect, update, and track data on a variety of project progress indicators and metrics – *e.g.*, construction data, mapping and Geographic Information System (GIS) files, budget and spending information, and data on utility pole/permit applications; perform data analyses and create/update internal reports –
- Prepare administrative deliverables including project origination documents, board and inter/intra-agency review materials, contract and procurement forms, internal memoranda, presentation materials, meeting notes, offer letters, incentive proposals and grant disbursement agreements.
- Ensure project expectations are managed by communicating effectively and timely with BPO staff and other stakeholders. Coordinate and facilitate meetings with the project sponsor, relevant representatives and stakeholders to review project proposal, goals, and deliverables.
- Work closely with BPO and/or ESD leadership to develop policy recommendations and structure new initiatives to drive expanded broadband access and availability across New York State.
 - Includes conducting research, developing program plans, and preparing associated deliverables – *e.g.*, reports and memoranda, presentations, requests for information, and requests for proposals.
- Perform other ad-hoc responsibilities relating to implementation and oversight of BPO projects.

Position expected to work onsite and/or remote consistent with NYS and ESD guidelines and needs.

EDUCATION & REQUIREMENTS:

Education required: Bachelor's degree in relevant discipline. Advanced degree, including Master's in business administration or public administration, may be used to offset experience requirement.

Experience required: 3+ years relevant experience required. Strong attention to detail.

Knowledge required: Excellent time management, communication and prioritization skills. Must have excellent computer skills and be proficient with Microsoft Excel, Word, and PowerPoint. Advanced proficiency in Excel and ArcGIS; Background and/or understanding of broadband technologies and utility/infrastructure construction projects; Experience with program development including Requests for Information and Requests for Proposals strongly preferred.

APPROXIMATE HIRING SALARY: \$63,000 - \$68,000 (w/ comprehensive benefits package)

INQUIRE

Maria Gately – Sr. HR Manager, Human Resources Dept.
