

# The New York State Contract Reporter

Helps Small Businesses Connect With New York State Procurement

Division of Small Business & Technology Development

The **New York State Contract Reporter** is the official publication of New York State procurement activity. It is a free online publication that provides access to the most current bid opportunities for commodities, services and/or construction projects valued at \$50,000 and over from State agencies, public authorities and public benefit corporations.

In addition, many New York municipalities, school districts, museums, libraries, as well as eligible not-for-profits advertise solicitations on the NYSCR site.

A free eAlert notification service is available to all registered users. Choose interested categories in your Opportunities Profile in order to receive daily eAlerts.

Archived ads are searchable and can help a business identify agency purchasing patterns, understand which agencies might purchase a company's products, and provide valuable contact information for purchasing agents.
