Broadway Market Business Planning & Concept Design Services RFP - Responses to Questions

Table with 3 columns: No., Question, Answer. Contains 6 rows of Q&A pairs regarding scaled drawings, police substation, facade improvements, steering committee, mission and goals, and CBRE Market valuation.

No.	Question	Answer
7	For community outreach, can City staff help organize meetings with mailings, digital projectors, meeting rooms, etc.?	Yes.
8	In the scope, a 10-15 page executive summary is mentioned. Is it correct that this is a summary of the updated Business Plan?	Yes.
9	Are the deliverables listed within the scope of work due with the RFP on the 13th, or is it just our plan for how to provide the deliverables? Specifically would our architect need to provide three design concepts for the interior of the market by the 13th?	Respondent approach to providing the scope of services and its associated deliverables is what is due on September 13 th , not the actual deliverables themselves.
10	Are there any existing floor plans or architectural drawings for the Broadway Market that we could have access to? We were able to get some information out of Appendix D, but we were wondering if there is anything more substantial?	The scaled drawings are available in the Facility Condition survey.

Each of the foregoing is added to and made part of the RFP. Any questions regarding this addendum may be submitted to the designated contact account for this solicitation at BroadwayMarket2019@esd.ny.gov.
